

CAPELLA™
SINGAPORE

Splendid serenity.

This is the life we have created at Capella Hotels and Resorts.

Our singular desire is to personally satisfy each of yours.

We attend to every comfort, every amenity, every activity with equal importance, because every moment of your stay is important.

We welcome you to Capella Singapore.

SO NEAR THE CITY, SO FAR FROM ORDINARY

Set on a magnificent tropical oasis of 30 rolling acres, Capella Singapore presents a most pleasant paradox — an intimate resort of just 111 luxurious guest rooms, suites and garden villas, yet the most spacious hotel setting in Singapore. Unconventional and uncrowded, a place to relax and rejuvenate.

Just minutes from the centre of downtown Singapore, Southeast Asia's thriving hub, you arrive at Sentosa Island. Secreted away on this tropical retreat awaits a haven far from the hustle and commotion of the energetic city, and far different from the template of ordinary hotels and resorts.

The destination is Capella Singapore. A personal paradise that combines the very best of old and new Singapore in a way only Capella can.

YOUR OWN PRIVATE OASIS WITHIN AN OASIS

The hallmark of Capella Singapore is its remarkable standard of personal service. Be it round-the-clock pampering or ample solitude, your discerning Personal Assistant is at your service. Skilled and trained in the fine art of preferential service, your Personal Assistant will give the utmost attention to every detail. Because they are your details.

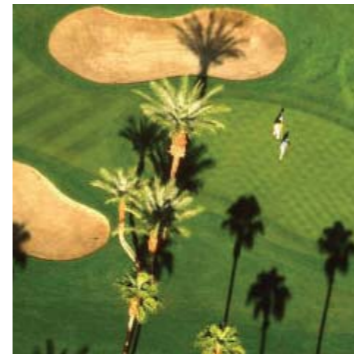

Your accommodations here are your sanctuary. Featuring the largest guest rooms in Singapore, many of which overlook the South China Sea, the hotel offers choices that include one- and two-bedroom garden villas, which are freestanding designs, replete with private plunge pools and discreet alfresco bathing facilities.

A PLAYGROUND OF INTERNATIONAL PROPORTIONS

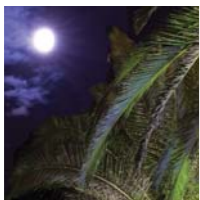

A favoured destination among distinguished business and leisure travellers, Capella Singapore is a proud addition to the elite design portfolio of famed architects Foster + Partners, London. Guests entering the grounds of Capella Singapore wind their way through groves of trees and up the knolls past an expressively abstract Bernar Venet sculpture, arriving at a drive that leads to the original two colonial buildings, which have been masterfully restored. Built in the 1880's by the British military, these historic structures once served as recreation and entertainment centres for the officers. They were named Tanah Merah, Malay words for "red earth."

Foster + Partners designed Capella Singapore in the shape of a figure-eight, an auspicious number in Chinese culture that signals prosperity. The property slowly unveils itself, revealing at first only a hint of the curving architecture that cascades down toward the sea.

Directly across from Capella Singapore is the championship Sentosa Golf Club. Regarded as among the top five golf facilities in Asia, Sentosa Golf Club plays host to international golf tournaments. Our guests enjoy privileged access to its two magnificent 18-hole courses. There are also four freshwater pools and an immense formal lawn ideal for weddings, lawn bowling, and croquet.

AURIGA SPA – A WORLD APART

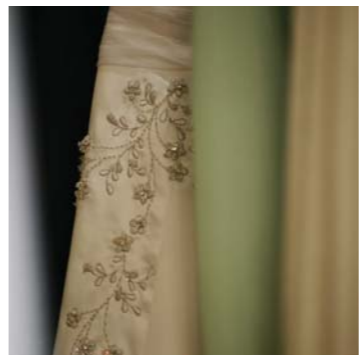

Set in an environment of contemporary Asian design, the Auriga Spa at Capella Singapore features individual spa pavilions serving as treatment rooms, each with its own private open-air garden for guests to enjoy.

While offering an array of traditional treatments unique to this region of the world, Auriga Spa is anything but conventional. For the ultimate Auriga experience, we recommend our signature Moon treatments – a celestial approach to wellness that aligns specific therapies with phases of the lunar cycle.

Where else on Earth could an honoured guest indulge in thousand-year-old healing treatments – infusing native flora and traditional remedies – elegantly combined with the most modern and luxurious spa therapies? No place but the Auriga Spa at Capella Singapore.

WEDDING MEMORIES BEGIN HERE

A wedding is, without question, one of the most intimate occasions of a lifetime. And few places honour this tradition more elegantly than Capella Singapore. Here the wedding experience is as beautifully distinct as each bride is to her groom. The entire event is defined by your own wishes, carried out to perfection by our Capella team.

At the centre of festivities is our spectacular circular ballroom with a glass-domed skylight, a first in Singapore. For the wedding party's utmost convenience, Capella Singapore has created Bliss, a special private suite adjacent to the ballroom, where our attentive wedding specialist will assist in every way possible — before, during and after your celebration.

Your honoured guests will long remember the impeccable care and service they receive while at Capella Singapore — from ultra-luxe accommodations in Singapore's most spacious Capella Manor to airy garden villas and suites, and from invigorating treatments and soothing massages performed by expert spa therapists to culinary masterpieces skillfully prepared by our talented chefs. Every detail will be perfectly arranged, just as you've always dreamt it would be.

TROPICAL BEAUTY. WORLDLY SOPHISTICATION.

Sentosa means "peace" in Bahasa Melayu. And this is the feeling Capella Singapore promises to provide each guest. For a week or a weekend, a wedding or a business function, perhaps even an extended stay. The Capella tradition of exemplary personal service, customised to the individual guest, will leave a lasting impression on even the most discerning and seasoned traveller.

For any occasion and for every guest stay, Capella Singapore is exceptional because nothing is left to chance and every detail is tailored for an experience that is nothing short of remarkable.
