Unigu^{est} Self-Service Boards™

Power of HP Touch

Unigu^{est} has combined the ingenuity of the HP TouchSmart with the power of Unigu^{est} customized applications to produce interactive touch-screen **Self-Service** Boards™. These attention-grabbing screens respond to the touch of a finger, to create an easy to use service with a remarkable customer experience. Placed in common areas, these self-service boards integrate full color striking flash graphics with HP cutting edge touch technology. With unlimited industry wide application, these are a few examples from the markets Unigu^{est} serves.
